Wayshowers College® Programs

Conducted by **Enjoy Inner Peace**

help people feel secure with their Inner Direction and their Two-Way Communication with the Higher Spirit. It also helps people gain a greater understanding of themselves and the universe in which they live so they will be better prepared to help their fellow man.

## Our program consists of 3 simple steps for accelerated growth

1. **Man and the Universe<sup>sm</sup>** public lectures. This program orients you with basic spiritual concepts of life. Topics covered include: Soul and Physical Body, Balanced Living, Life After Death, Spirit Guides/Angels, 7-year cycles, Intuition, Vision, Prophecy, and Feeling.
2. **Technique Workshop.** Following most public lectures will be a special three hour workshop where people can experience their innate sensitivity to the auras of others and how their Spirit Guides/Angels try to work with them.
3. **Weekly Groupwork:** Groupwork allows people of like minds to come together in mutual respect. Study materials and experiential techniques help individuals unfold. Through meditation, healing, and Energy Dynamics<sup>sm</sup> techniques, you will realise your spontaneous sensitivity to energy and the world around you.

# Extra Sensory Perception

## WHAT IS IT ?

Extra Sensory Perception is the ability to pick up thoughts, impressions, hunches and energy patterns. It brings awareness of more than the eye can see, the ear can hear, the nose can smell, the fingers can feel or the tongue can taste. In some circles it is referred to as the sixth sense.

## WHO POSSESSES IT ?

Every person. The fact that some have developed this extra sense to a very high degree has created the impression that only certain people have it.

We all fit into the category of “the sensitive”. Every day, in all circumstances, we constantly respond to it. This is the most important of all senses, for it is the response to life.

## HOW DOES IT WORK ?

Everyone is spirit, soul, or electromagnetic energy. Our soul gives energy to the body. Because we are a soul or electromagnetic energy, we create by thought or energy. Every thought we think is like a radio wave being transmitted, available for anyone in the universe to pick up.

Just as we transmit or send out these thought waves, so we receive the thought transmissions of other minds. We receive them like a radio and respond to them unconsciously as if they were our own thoughts.

There are men and women rising to great heights of creative leadership because they have “tuned in” to the higher thought perception or creative intelligence of the universe.

Mastery of life must find its greatest challenge in learning the fine art of discernment of what thoughts are initiated from oneself and what thoughts have been picked up from sources outside oneself. One of the objectives of the ALC program is to help man find mastery of life through understanding the atmosphere and environment in which he moves.

## DO WE ALL PERCEIVE ALIKE ?

No, we do not. There are basically four ways that we interpret an incoming thought pattern or energy.

There is the **Intuitive** person who will pick up a thought and hear it. An Intuitive is sometimes considered a “mental” or “intellectual.” Understanding is very important to an Intuitive.

There is the **Visionary** who will pick up a thought and see it. A Visionary sees visions, symbols, colours, etc. in the mind’s eye transforming the thought into an image. A Visionary is sometimes considered to have a photographic mind or to be clairvoyant.

There is the **Prophetic** person who receives a thought as a knowing. Prophetics quickly grasp the “total” concept or idea and have no interest in breaking it down intellectually. A Prophetic is usually sensitive to precognitions and hunches, dreams and knowings about the future.

There is the **Feeling** person who picks up a thought and translates it into a feeling. A Feeler’s whole response to life depends upon how it feels. Their sense of touch is extremely well developed and they know people by feeling what they feel.

Each of us lives primarily by one of these personality types and partially by the other three. Once we discern this, we can begin to understand ourselves and those around us to a greater degree.

## IS ESP RELIGIOUS ?

It is neither religious nor non-religious. It is the common experience of all people.

In the religious field, man has talked about prayer and the reality of hearing the answer to prayer. We read of “the still, small voice,” “the Father speaking from within,” or inner guidance. This reality can be developed so that from the religious sense man can, through meditation, develop a two-way communication. We also read of visions, prophecies and healings.

From the psychological sense we hear this reality referred to as communication or impressions from the “higher self” or the “unconscious”.

From the medical, we hear of psychosomatic influences.

From the scientific field, we hear references made to energy being transmitted and received.

From the layman’s point of view we hear of hunches, feeling premonitions, and intuitions.

From industry, we hear of creative inspiration.
